

9 ELEMENTS

OF DIGITAL CITIZENSHIP

Access

Access involves allowing students from any background to connect with others, with no barriers to entry.

Etiquette

Good Digital Etiquette involves treating others appropriately and with respect in a digital setting.

Commerce

Internet Commerce is busy. Learning and practicing safe financial habits will empower students to make good financial decisions.

Rights/Responsibilities

As a digital citizen, you have certain rights that protect you *and* your privacy! Know your rights!

Literacy

The internet is full of information and *misinformation*. Understanding source of that information is a valuable skill.

Communication

Digital Communication as a student is key to success in class and in future careers. In higher education and the workforce, people are always communicating digitally.

Law

While the internet is fairly new, there are laws in place to protect users from crimes like identity theft, etc.

Health/Wellness

Using the internet and being a digital citizen may require being in front of a screen for long periods of time. Watch your psychological and physical well-being!

Security

There are many bad actors in the digital world: Scammers, viruses, stalkers, etc. Learning how to secure your computer will make it less likely to encounter this!
